

# INTERVENTION AND REFERRAL SERVICES (I&RS) TRAINING FALL 2019

PRESENTED BY THE SRI&ETTC AT STOCKTON UNIVERSITY

The SRI & ETTC offers schools and districts the resources to support building and district staff in the effective implementation of I&RS best practices. The SRI & ETTC provides public professional development workshops and custom onsite services which are designed to provide schools and districts with the information and skills to effectively implement the I&RS program. Participants will learn how to identify student issues and plan effective interventions and action plans to address these issues.

According to N.J.A.C. 6A:16-8, each district board of education is required to establish and implement a coordinated system in each school building in which general education students are served for the planning and delivery of Intervention and Referral Services (I&RS.) I&RS is designed to assist students who are experiencing learning, behavior or health difficulties and assist staff who have difficulties in addressing students' learning, behavior or health needs.

**The SRI & ETTC is currently offering Public and Custom I&RS Workshops to fit the needs of school districts.**

### Intervention and Referral Services (I&RS) Team Training

Intervention and Referral Services (I&RS) Team Training is designed to provide schools which have new or reorganized (e.g, new members, new structure) school building I&RS teams with basic information, materials and skills to help them fulfill the regulatory requirements for the planning, development, implementation and maintenance of programs of I&RS (N.J.A.C. 6A:16-8). This training can also be used to provide review for existing teams. Workshop focus will include identifying and addressing academic, behavior and health issues and developing effective intervention strategies and action plans. In this training participants will also discuss how to incorporate RTI into the I&RS process.

**Fall 2019 Training Dates:** October 21, 2019 or December 5, 2019

**For more information or to register visit [www.ettc.net](http://www.ettc.net)**

### Onsite Team Training and Technical Assistance

Onsite Training is designed to provide schools and districts with information and training to ensure a highly functioning I&RS team. Onsite Team Training addresses information, materials and skills to help fulfill the regulatory requirements for the planning, development, implementation and maintenance of I&RS programs, including identifying and addressing academic, behavior and health issues and developing effective intervention strategies and action plans. Onsite Technical Assistance activities may include observation of an actual I&RS meeting to assess strengths and opportunities for improvement. Feedback will be provided regarding meeting organization, timing and effectiveness of application of the problem-solving model.

Pricing for I&RS Onsite Training is based on the number of hours in-district and can range from a three hour workshop to a full day workshop. Trainers are available to come into your district and tailor the I&RS workshop to fit the needs of your individual school or district. Larger group sizes can be accommodated.

**For more information on I&RS Training in your district please contact the SRI&ETTC at [intervention@stockton.edu](mailto:intervention@stockton.edu).**
