

READING, WRITING AND ARITHMETIC ON THE FARM! A Math and Literacy Workshop for Teachers Grades K-2 to Implement Agriculture in the Classroom January 17, 2018

In this workshop participants will discover lessons incorporating plans, materials, and Common Core Standards so they can plant the seeds of Math and Literacy in their students using agriculture. Each of the selected books is an Accurate AG Book, which tells the story of farming with facts, feelings and fun!

One set of books will be donated to each school that sends a teacher to the workshop. All participants will receive the materials needed to reproduce the lessons.

Mathematics titles include:

- *How Many Seeds in a Pumpkin?* by Margaret McNamara
- *Soybeans in the Story of Agriculture* by Susan Anderson & Joanne Buggey
- *The Apple Orchard Riddle* by Margaret McNamara
- *The Beeman* by Laurie Krebs

Literacy titles include:

- *The Guardian Team* by Cat Urbigit
- *Gardening for Nutrition* by Florida AITC
- *First Peas to the Table* by Susan Grigsby
- *My American Farm*

This workshop is presented by the SRI&ETTC at Stockton University in collaboration with the New Jersey Farm Bureau.

Date: Wednesday, January 18, 2018

Time: 9:00 a.m.–1:00 p.m.

Location: SRI&ETTC, 10 W. Jimmie Leeds Road, Galloway, New Jersey

Cost: \$58.00 or 2 ETTC Hours
