Google Add-Ons: Pre-Beach PD 2020

Have you ever felt like you needed your Google Applications to execute a task but the options simply aren't there? Well, there's hope! There are numerous ways to extend your Google Applications and your Chrome browser to suit your needs. This webinar explores the world of Google Add-ons and Chrome extensions. We'll look at how to get them, how to control their preferences and how to use them. We will try out some of the most popular and useful add-ons that people are using in the educational community and most importantly, discuss how to find an extension or add-on when you are confronted with a task that plain old G-Suite just can't handle alone.
