

DESCRIPTIONS

Kim Mattina

May the Forms be with You!

In this session, the audience will learn about the many features for effectively using Google Forms by exploring the quiz option, types of questions, analyzing the responses and much more! Additionally, we will explore a few advanced features such as data validation, notifications, and settings. The instructor will also present some effective ways to integrate Google Forms in the classroom.

Level: Beginner - **Prerequisite:** Knowledge of Google Drive and Google Sheets

An Overview of the Chrome Web Store, Apps and Extensions.

During this session, the audience will learn how to navigate the Chrome Web Store, and manage Chrome Apps and Extensions in their respective accounts. The instructor will provide recommendations on specific classroom apps and extensions that you may find helpful using with your students.

Level: Beginner - **Prerequisite:** Knowledge of an Internet browser, recommend Google Chrome

Nifty Add-on for Google Docs

During this session, the audience will witness the power of Google add-ons. Add-ons provide additional functionality in a Google Doc. The instructor will demonstrate how to manage add-ons in Google Docs, and model a few helpful add-ons that can be used by students and teachers.

Level: Beginner/Intermediate - **Prerequisite:** Knowledge of Google Docs

Google, Grading and Rubrics

During this session, the instructor will model a digital workflow using specific tools to provide feedback on a Google Doc, attach a rubric to a student document, and grade and return the document to the student. I will use a variety of tools such as the commenting tool in Google Docs, Google Add-ons, and Google Classroom.

Level: Intermediate/Advanced - **Prerequisite:** Google Docs, Google Add-ons, Google Classroom

Let's Go on a Tour - An overview Google Tour Builder

During this session, the audience will learn how to navigate the Google Tour Builder interface, and create their own tour using images, text, and videos.

Level: Beginner
